

There and Back Again (TABA)

Shanel Wu (Piper Nell)

Sizing: XS (S, M, L)

Fits baby (child/adult narrow, adult medium, adult wide) feet. Sizes correspond to foot widths of 2 (3, 4, 5)" or 5 (7.5, 10, 12.5) cm. Each size defaults to a foot length of 4 (7, 9, 11)" or 12.5 (17.5, 22.5, 27.5) cm, but can be adjusted by following the instructions on the following page. Select size based on foot width.

Yarn Requirements

40 (85, 140, 200) yds of wool or wool-blend worsted weight yarn. One 100g skein will make most sizes.
Sample: Diamond Pure Wool SW in "Corn Silk"

Gauge: 5 sts/1" (flexible row gauge)

Gauge is measured over slightly stretched stockinette stitch. A dense fabric is necessary for long-wearing socks. If you obtain a gauge tighter than 5 sts/1", work a wider sock instead of switching needle sizes.

Tools

- US4/3.5mm (or size needed to obtain tight gauge) in any style
- tapestry needle
- 1 removable stitch marker

Techniques

This pattern is suitable for an advanced beginner. Prior to knitting this pattern, you should be familiar with casting on, knitting, purling, k2tog, kfb, and slipping stitches. For a complete list of stitches used, see Pattern Key.

Pattern Key

Construction

A: Foot Width 2 (3, 4, 5)" / 5 (7.5, 10, 12.5) cm

B: Foot Length 4 (7, 9, 11)" / 10 (17.5, 22.5, 27.5) cm

C: Leg Height 1 (2, 3, 3)" / 2.5 (2.5, 5, 5) cm

D: Front Length 5 (8, 11, 13)" / 12.5 (20, 27.5, 32.5) cm

Leg height and front length given for short cuff option.

The sock begins with the front cuff, proceeds down the foot, bends around the toe to complete the sole and heel, then returns to the back cuff. Each colored section in the schematic corresponds to a numbered section in the instructions.

Adjusting Length/Height

Foot Length: ____ Measure your foot from heel to toe to determine the foot length of your socks.

Leg Height: ____ For a *short* sock as shown in the sample, divide the foot length by 3 or by 4, depending on preference. For a long sock, divide the foot length by 2.

Front Length: ____ Add the foot length and the leg height. For all sizes *except the XS*, subtract 1".

Adjusting Width

Adjusting width will be a more extensive modification. If none of the written sizes suits your needs (maybe you're modifying for a different gauge or more/less ease), you can CO any number of stitches to obtain your desired width. At the toe, work **Row 2** an even number of times until you decrease to approximately a third of your CO sts. At the gusset increases, repeat **Rows 9 and 10** until you've increased by a third of the CO stitch count. Work the heel decreases until you decrease to a third of the initial heel stitch count. Increase back to the CO stitch count to complete the sock.

Approximate Yardage Required: *Modifying the measurements will affect the yarn required. Assuming that you are using the written gauge, this table estimates the amount of yarn you will need for certain sizes.*

foot length	width			
	2"	3"	4"	5"
4"	40	60		
7"	55	85	110	
9"		105	140	175
10"		120	155	200
11"			170	220
12"			185	235

1. Front and Instep

CO 10 (15, 20, 25) sts using the long tail cast on. Place a removable stitch marker in the last CO st (i.e. the first st you will work) to mark the beginning of a RS row.

Row 1: sl1 wyif, k to end.

Repeat Row 1 on both the RS and WS (garter stitch) until work measures 5 (8, 11, 13)'' or 12.5 (20, 27.5, 32.5) cm from CO, ending after a WS row.

2. Toe

Part A

Work Row 2 a total of 6 (10, 14, 18) times until 4 (5, 6, 7) sts remain.

Row 2 (Decrease Row): sl1 wyif, k to 3 sts from end, k2tog, k1.

(-1 st)

Part B

Work Rows 3 and 4 once to set up the second half of the toe.

(+1 st)

Row 4 (WS): sl1 wyif, k to 2 sts from end, kfb, sl1 wyif, pick up and purl 1 st in the first selvedge st below (see diagram B), psso and turn.

(+1 st)

Then, repeat Rows 5 and 6 a total of 2 (4, 6, 8) times until you return to 10 (15, 20, 25) sts.
